OUR LABOR TOODEAR

Li Hung Says We Cannot Compete With the World's Markets.

EXCLUSION ACT UNFAIR AND FOOLISH

Hopes for Its Repsal Under Another Administration-Too Many Political Parties in the United States, He Says. Irishmen Hate the Chinese.

New York, Sept. 3.-Li Hung Chang and suite left for Washington this morning. They were conducted from the Waldorf to Desbrosses street ferry and to Jersey City, where a special train was in waiting. A vast crowd congregated at both the New York and New Jersey ferries and cheered the distinguished old Chinaman as he departed. At the reception in Brooklyn yesterday afternoon Li came near fainting and was compelled to retire to his hotel, where he denied himself to all callers. Li's finger, which was badly jammed in a carriage during Tuesday's demonstration, was greatly improved this morning. Before starting for Brooklyn the viceroy received a number of newspaper representatives and submitted to an interview. He was asked in what respect the people of the United States had failed to come up to his expecta-

Too Many Political Parties.

"I cannot say anything bad about the American people or America," said the viceroy. "I have nothing to complain of. My reception has been very gratifying to me. The only criticism I have to make is that there are too many political parties in this country. I hope that the press will endeavor to unite people into fewer parties. I think that it will be better for the country." "Have you purchased or contracted for any material for China which is necessary for shipbuilding or railroads or other improvements in China since you have been in this country?" he was asked. The viceroy evaded the question.

Excitation Act Unfair and Poolish.

"Do you look for the repeal or modification of the Chinese exclusion law. our congress in 1892?" "I know," said the viceroy, "that you are to have a new election in this country and that, necessarily, there will be changes in your government. I confidently expect that the friends of China will support measures looking to the repeal of the present law. I know that the press is the most influentral institution in America. I hope that the press will use its influence with the government to have the Chipese exclusion law repealed. The exclusion act is a most unfair one and most foolish, because it is admitted by all who have studied political economy alone will keep a market in good health whether the market is one of commerce or labor. The democrats wish to monopolize the labor market of America By exculding the Chinese you will healtny compet t.os.

Labor Too Dear in America. "It would be the same thing if we in China excepted your goots, a though they were encaper and better than the goods of other countries which were allowed to come to our shores. I ask you, would that be fair or would it not? Put aside from your minds that I am a high Chinese official and mandar,n and look upon me as a man who is studying the best interests of America. I say to you that to exclude cheap labor or cheap commerce from your country is unfair and against the heat interests of your country. By excluding the Chinese and taking the Irish you get inferior labor and pay superior prices for it. You are proud of your state. You are proud that you represent the best type of modern civilization. You boast of your freedom, of your liberty. Is the exclusion of the Chinese a part of your scheme of liberty? You in America, according to the statistics of the patent office, tuen out more inventions than any other country. In America, agriculture, commerce and industry equally have the attention of the people. In England, it is the industry which makes that nation. England is the workshop of the world. You make mechanical things better in this country than they do in any other, but you charge too much for them. Your labor is too dear.

Blames the Irish.

"Exclude cheap labor and you cannot compete with the markets of the world Let your labor have free competition and it will become cheaper. A chinaman lives a more simple life | than an Irishman and the Irish hate the Chinese. Is this fair to exclude my countrymen? If any gentleman wishes to advance any argument in support of the exclusion of the Chinese I will be pleased to hear it and answer him." No reporter cared to argue the question with the ambassador and the following was put to him "D) you favor the establishment of newspapers on the American plan in China?" . 'We have newspapers in China," said the viceroy "but the editors are too economical in telling the truth. We w uld be pleased to get editors who will teil the truth, the whole truth

and nothing out the truth, but at present editors are too conservative in writing the truth. If we can get truthful editors we will be pleased.'

MAY CHANGE THE NAME.

Legal Objections in Seme States to "Na tional Democracy."

Indianapolis, Sept. 3.—It may be necessary to appoint an extra committee to consider the advisability of giving the party a new name. There it undoubtly a disposition on the part of a large majority of the delegates to retain the name National Democratic party, on the ground that they constitute the real democracy of the nation, but there are legal objections in some states, which, it is said, will make its use impossible. The mempers of the national committee discussed the subject at considerable length yesterday afternoon, and while they did not arrive at a conclusion, for the simple reason that the discussion was informal, they seemed to agree that the subject was one of great importance and that it should be treated with the utmost discretion.

Cleveland Receiving the News.

Buzzards Bay, Mass., Sept. 3.—The president is receiving over a special wire the proceeings of the Indianapolis convention, as he did those at St. Louis and Chicago. The wire is run from the main line over to Gray Gables, a special operator being sent from Boston.

CONNECTICUT REPUBLICANS.

The St. Louis Platform Endorsed and Ler

rin A. Cooke Nominated for Governor. Hartford, Sept. 3 .- At the second day's session of the republican state convention, permanent organization was effected, with Samuel Fassenden of Stamford as permanent chairman. The platform adopted endorsed that of the republican national convention and declared specifically for the gold standard and a protective tariff. Lieux-Gov. Cooke was nominated for governor on the first ballot Charles l'helps of Rockville was nominated for secretary of state by acclamation. The ballot for lieutenant-governor re--ulted in the choice of J. D. Dewell of New Haven. Presidential electors were chosen as follows: At-large-Col. George Pope, Hartford; James Graham: Orange. First district, Gardner Hall, Willington: second, George L. Allen, Middletown; third, George A. Hammond, Putnam: fourth, J. Deming Perkins, Litchtieid

Silver Party Campaign.

Washington, Sept. 3 .- George P. Keeney writes to silver headquarters that he has organized in Chicago sixty silver clubs with a membership of 30,-000. George A. Groot, chairman of the silver notification committee, writes that the full committee will be present at Lincoln, Neb., Sept. 8. Senator Timman of South Carolina will resume his stumping tour in Pennsylvania, among the miners. Sept. 10. He will speak in Philadelphia, Sept. 19.

G. A. R. PARADE.

One of the Brilliant Events of the Veterans' Eccampment at St. Paul.

St. Pau. Minn., Sept. 3.-Twentyfire thousand veterans of the Grand Army marched proudly yesterday under a canopy of red, white and blue, flanked by piliars of white and between lines of 75,000 applauding citizens. The route was two mites long, ending at an immense reviewing stand where Commander-in chief Walker stood with his staff after leading the old soldiers to that point at Smith park. The spectacle as the army on foor, the bands of music and mounted officers of national renows came down the hill on Six h street with flags and banners flying. was insorring and beautiful in its martias aspect. It was arranged to start the column at 10 o'clock, but there was an hours' delay. The Second regiment of the Minnesota National guard kept the multitude to the limits. of the sidewalks with bayoneted rifles. and the assistance of the police. On the arrival of the commander at the reviewing stand a salute of twentyone guns from Battery B of the Minnesota mititia was fired at Smith park. The Himois posts were first in position and numbers. Clouds threatened rain but there was none to mar the grand march.

Monument to Gen. Josiah Porter.

Alreany, Sept. 3 .- A monument to cost 1.0m \$12,000 to \$15,000 is to be erected here in memory of tien. Josiah Porter, Capt. David Wilson of the Second battery of New York city is secretary of the committee which has the project in charge and he has sent a letter to the many members of the association requesting their immediate

active co-operation. Denies That have Has Been Recalled.

Bar Barbor, Me., Sept. 3 .- Baron Favo, who has been here for a few days, has left town. Baroness Fava was seen and shown the dispatch stating toat Baron Fava had been recalled and she completely denied the report. Baroness Fava leaves here today, probably for Washington.

Treasury Gold Reserve. Washington, Sept. 3. -The treasury

gold reserve at the opening of business to-day stood at \$103,243,213. Yesterda, kwandrawals at New York were \$101,800.

Bad Armenians, He Says, Are Slaying His Soldiers.

MANY ALREADY EILLED AND WOUNDED

Stories from the Sublime Porte Givan te the Press by the Tarkish Minister at Washington-All the Troubie Due to the Armenian Rebels.

Washington, Sept 3 .- The Turkish egation has received from the sublime porte the following telegram: "When the troops were passing through Pers, on their return from the Seismlik, a bomb was thrown from a house, but although the bomb exploded no harm was done. Three Armenians were arrested in connection with this attempt. In the rooms of the ministers of the school for girls at Psomatia, thirty-six bombs, dynamite and fire-arms were discovered. The number of soldiers and agents of the authorities killed or wounded by the Armenian revolutionists during the troubles is considerable."

PLOT OF THE TURKS.

The Rioting Instigated by the Government and l'ermitted by the Powers.

Boston, Sept. 3.-Hagop Bogigian of the American Armenian relief committee is of the opinion that the trouble in the Ottoman bank, Constantinople, was not the work of any Armenian society antagonistic to Turkish interests or desires. He says: "The fact is, that from the beginning of the first mas-acre at Sassoon to the last one in Constantinople, in every instance it was the work of the agents of the Turkish government, well paid, planned and arranged. This is a fact that at least two of the signatory powers understand and are perfectly cognizant of. Both are playing a game of chess. These so-called riots are expected to furnish to either of them an advantage over the other. Neither of them has got a particle of bumanity nor true civilization, not to ay Christianity. It is perfectly plain to those who understand the workings of the last two years' butchery in Turkey that the so-called Armenian revolutionists, if Armenians at all, were Turkish agents, receiving regular salaries, with written guarantees from the Turkish government that no harm should come to them, and that after the accomplishment of their work in particular places and particular times they should be allowed to go out of the country or live there under the direct protection of the government, in either case receiving high salaries. These facts are well known to the representatives of European powers, out those Christian and civilized nations and government encourage the Turkisa governments in its cruelties jeatousy. What a terrible mockery of Christianity! If this is the kind of Christianity and civilization they are trying to introduce into Asia, Africa and the islands of the sea, I hope God will be merciful to those countries and spare them from falling into cowardice, sectishuess and inhumanity."

WILL ACT INDEPENDENTLY. Eugland Said To Bave Changed Her Policy

with Regard to Turkey. London, Sept. 3.-The report in official circles tuat Lord Salisbury has determined to pursue his own course at Constantinople without regard to he other powers, and that he has liven the British ambassador, Sir Phuip Currie, precise and significant as ructions, with greater powers, to command naval aid in enforcing the iemands of Great Britain, has caused a division of opinion among those generally well-informed, some scouting the idea of the government acting vithout at least the moral support of he other powers, while others believe the report is true, and point to the recent dispatch of a powerful fleet to Turkish waters and the premier's well known devotion to the principle of "England's spiendid isolation" for confirmation of their views.

John R. Gentry's Fast Race in Harness.

Fleetwood Park, N. Y., Sept. 3 .- In the free-for-all pace race yesterday afternoon John R. Gentry won the third heat and race, leading from start to finish. Robert J. was second and Frank Agan third. Time, 2:0314. The time of the three heats won by John R. Gentry is the fastest ever made by a harness horse.

THE SUFFERING TURK | GOLD STANDARD MEN

First Day's Proceedings of the Indianapolis Convention.

PERMANENT ORGANIZATION COMPLETE

Senator Caffery of Louislana Permanent Chairman-Speeches Made Denouncing the Chicago Platform and Repudiating the Ticket.

Convention Hall, Indianapolis. Sept. 3.-The first day's session of the national democratic convention, called by the advocates of the gold standard and the upponents of the Chicago platform, was marked by unanimous action and favorable surroundings of wind, weather and enthusiasm. Eight hundred and twenty-four delegates were present out of a possible 900. These represented forty-one states and three territories. In many instances the delegates were supplemented by full sets of alternates, so that the attendance equalled the seating capacity of the hall. As a body, the delegates presented the appearance of business men, well dressed, well mannered and courteous-some of them so unaccustomed to political conventions that they had to be instructed as to the simplest matters of procedure. To leaven this lump of political innocence there was quite a sufficient admixture of veteran politicians-old wheelhorses. in fact-including three United States senators, Palmer, Caffery and Vilas; four or five governors and ex-governors of states-Jones of Alabama, Stokley of Delaware, Buckner of Kentucky and Flower of New York, besides several prominent ex-congressmen. among them D. E. Everett of Massachusetts and Perry Belmont of New York. The convention went to work with business celerity, effected both a temporary and permanent organization and got down by one day to the important order of business. Senator Palmer of Illinois, chairman of the committee which issued the call, rapped the convention to order. Ex-Governor Flower was made temporary chairman and read a very long address, many points of which were cheered. He said that this gathering was a notice to the world that the democratic party had not yet surrendered to populism and anarchy. "No democrats here," he said, "sought honors from those who framed the Chicago platform. Every democrat here," he continued, "has only humiliation to expect in the event of the success of the Chicago ticket. No democrat honored here by being made the candidate of this convention can look forward with any reasonable hope to an election. None of us who help to no minate him can expect to be participants in any distribution of political favors. We are here because we love the democratic party and because we love our body. Then Simmons took the keys, country. That is the inspiration which opened the gate and fied into the road country. That is the inspiration which has drawn us together and encourages our action. That is the fact which evidence our sincerity and makes our cause strong with the people." Ex-Gov. Flower was succeeded by the permanent chairman. Senator Caffery of Louisiana, whose speech was much shorter than the temporary chairman's but was unusually incisive. He said that the leaders chosen by the democracy had desecrated her aitars and preached false doctrines, and that it rested with the assemblage here to mend the broken shrine and point out the true path. He called the Chicago democrats inflationists and repudiators. He said the delegates here are not traitors, but are true democrats, and that while democracy lasts the republic snall last. Senator Caffery drew hearty applause when he said: "We appeal from the democracy drunk with heresy to a democracy sober with reason." At the conclusion of his speech he was heartily cheered. Oratorical Effects.

The oratorical effects of the day were secured by D. E. Everett of Massachusetts and John P. Irish of Catifornia. Dr. Everett declared that Massachusetts was for gold and not for bimetailism by international agreement, asserting that every nation whose views were worth having and adopted the gold standard. He also repudiated any "alliance with the Mc-Kinier protectionists," and procaimed "regularity" for the present convention, which he believed would be the precursor of a long line of regular democratic conventions. Mr Everett was cheered when no said it, it Massachusetts would not submit to the insult east upon the chief executive of the nation and toat Massachusetts stands by Grover Cleveland. He said that Massachusetts had no cardinate to present, and made a touching reference to the death of ex.Gov. Russed. Cleverand's Name Cheered.

After the manimous adoption of the report of the committee on rules recommensing the adoption of the rules of "the last democratic convention," naming the convention of 1892 as such. the e were load calls for John P. Icish of California. Mr. irish was very aggressive in his remarks. He spoke of ackinder's projection and Bryan's free vilver coontain" as "twin sisters of the norse leach," working in concorr e ob to produce a depression of

ver was to be the remedy. He opposed an income tax, and called upon all true democrats to protect the supreme court of the United States from the degradation which would be thrust upon it by the "puppet of the free silver syndicate." All these remarks were vigorously cheered. The most noticeable feature of the day's gathering was the reception which met President Cleveland's name. Whenever it was mentioned it was greeted with an uprising demonstration of applause. The convention adjourned at #:40 until 11 a'clonic to-day

SEA GIRT RIFLE MATCHES.

Seergians Duplicate Their Performance of Last Year and Carry Off a Prize.

Sea Girt, N. J., Sept. 3.-Georgia duplicated her performance of last year at the third day's meeting of the New Jersey State Rifle association. The southerners won the valuable bronze trophy, "Soldier of Marathon," scoring eighteen points over Massachuseetts. The District of Columbia marksman were third with a score of 1,022. When the sharpshooters went to the butts the wind was very light and the riflemen were congratulating themselves that the day would be free from a heavy breeze. The wind, however, soon shifted around to the north and blew hard enough to interfere with exceptionally good scores. The inter-state match took up the greater part of the day, and it was not finished until after 4 o'clock. Five teams entered, as follows: Georgia, Pennsylvania, District of Columbia, Massachusetts and New Jersey. Many persons expected that the members of the 12th and 7th regiments of New York would compete for the inter-state trophy, but the sharpshooters packed up early in the morning and left the camp. They realized that they had little chance of winning the prize. Lieut. Stebbins of the 12th New York said that his state had made no appropriation to send a team to compete for the prizes.

THEY FEARED THIS PRISONER, Simmens, Who shot Keeper Thompson at

Baltimore, Was an Unruly Convict. Baltimore, Sept. 3.-Edward Lee Simmons, the 19-year-old inmate of the house of refuge, near this city. who yesterday shot and mortally wounded keeper H. F. Thomas and made his escape, was always considered one of the most unruly prisoners in the institution, and precautions were taken to prevent an attempt at escape, which had been expected. Despite the vigilance of the keepers, however, he yesterday broke into a locker and stole two fully loaded revolvers. Armed with these, he ran to the main entrance, and pointing one of them at Thomas, who was on duty there, demanded the keys. The keeper refused to surrender them, whereupon Simmons lowered the weapon and shot him through the lie was pursued by several other keepers, whom he kept off with his pistols.

IS THE LAURADA A WRECK? If Irue, the Disaster Is Believed To Have Been Due to Foul Play.

Jacksonville, F.a., Sept. 3.-The news received here from Kingston. Jamaica, that the Cuban filibustering steamship Laurada, which recently transferred her men and arms to the tur Danntless, has been wrecked, is generally believed to be true, but if the information is correct, it is thought the disaster was the result of four play.

The Laurada has been extremely suressful in running the (noan blockage, having landed many parties of men and large supplies for the insurgents. The work has been done so cleverly that the United States sutherivies were unable to get any proof that the neutrality laws were being violated. Spanish men-of-war have frequently chased the steamship, but she always managed to escape.

PARDON FOR BARDSLEY.

Clemeacy Recommended for Ph., adelphon's ex-Treasurer.

Harrisburg, Pa., Sept. 3 .- The board of pardons, at a special meeting yesterday afternoon, voted to recommend the carlon of John Bards'er, exelty treasurer of Phicadelphia, nowserving a 15 years' sentence in the penialit'ery. The reason for this action will be submitted to Gov. Hast ngs when La returns to Harrisburg next week. The action of the governor is final. Bardsley has been in prison since 1891.

Coverament Building Contracts

Washington, Sept. 3 .- Bits were opened at the treasury department yesterday atternoon for constructing the intermediate floors of the New York postollice. Luke A. Burke of hew York was the only ladder at \$15,-1911. The contract for the creetion of the Beaver Falls, Pal, public building L. Salen awards I to William Milier of Pittsburg, at \$30,746.

Pixeed on Retired List.

Washington, Sept. 3. -Major John Egan, First artiflery, having served mole than therity years, has just been, at his own request, placed on the retired hat. He was born in New York and an wint diff the military andemy torices for which free trade or free sil- I from New York in 1888.

TO RECEIVE THE CZAR

Emperor William and the Empress Start for Dreaden.

BIG TIME IN SAXONY TO-DAY

Great Military Parade To Great the Kaiser at Zaithain-Programme of Events Arranged for the Entertainment of the Autocrat of the North.

Berlin, Sept. 3 .- Emperor William

left Potsdam last night on his way to Dresden. This afternoon he will be present at a great parade of the Saxon (Twelfth) Army corps and the Fourth Guarda Cavalry brigade at Zeithain. After the parade a banquet will be given in the royal castle of Albrechtsburg, at Meissen, where covers for 300 will be laid. In the evening the old historic castle and the hills of the Elbe will be illuminated. To-morrow the emperor and his guests will leave for Breslau, arriving in that city at 1:30 p. m. There will be no reception at the station by the civil authorities; only the military household, etc., will be present, owing to the shortly following arrival of the czar. The emperor will ride and the empress drive through the Scaweidnitzer road, where the guilds will form in line to the town hall to drink the loving cup. After the "cup" their majesties will drive to the palace. On the road 12,000 school children will be formed in line, with banners. The ezar and ezarina upon their arrival will leave their train in the eastern wing of the railway station, the vestibule of which has been turned into a tropical flower garden. There tneir majesties will receive. The Kaiser Alexander footguards will form a line from the station, and the Kaiser Alexander dragoons will escort the carriages in which the imperial guards will be seated. Ou Sept. 5 Emperor William will accompany the czar and ezarina to to the parade which will take place that day. Both imperial couples will drive from the czar's residence to the drill ground. After the parade they will drive over the Konigsplatz, where, in the meantime, the Warriors' and Veteran unions and the Catholic and Evangelic Wormen's unions will have formed in line. A gala opera and theater performance will be given, commencing at 8 p. m. The kaiser has ordered the Russian nationaly hymn, followed by the Prussian national hymn, shall be played when their imperial majesties enter their box

PHISIOLOGY OF EXERCISE. An Interesting Paper Read at the Social beleuce Convention at Saratuga.

Saratoga, N. Y., Sept. 3 .- At the morning session of the American Social Science association several papers were read on health, the first one being by R. R. Rolton of the New York university on the "Phisiology of Exercise." His resume of the subject was very interesting. He condemned spasmodic exercise, such as training for an athletic competition, and then relinquishing the exercise until the next contest. He spoke in favor of bicycling and golf as the best kind of exercise for both old and young, and reviewed at length the effect upon the system of judicial exercise. Last night the following officers were elected: President, James B. Angell of Ann Arbor, Mich.; first vice-president, F. J. Kingsbury of Waterbury, Conn., and sixteen associate vice-presidents; general secretary, F. B. Sanborn of Concord, Mass.: treasurer. Anson Phelps Stokes of New York, and a board of directors.

WORK FOR 500 MEN. New Coal Field To Be Opened Near

Shamokin, Pa.

Shamokin, Pa., Sept. 3.-Messrs. Brennan, Boyle and Foy, Pittsburg capitalists, have purchased a large tract of coal land at Hickory Ridge, a new miles from this city. They have selected a site for a new breaker and will sink a slope, the cost of which will be about \$100 000. Work will at ouce be commenced upon this industry, which will employ 500 men and boys. The breaker will have a capacity of 450 tons of coal per day.

Watterson Believes He's Safe.

London, Sept. 3.-A letter has been received here from Henry Watterson of the Louisville Conrier-Journal, adaressed to a friend who wrote him last week and asked him for his views moon the political situation in the Carted States. Mr. Watterson said be cand not add anything to the statements arrestly made on the subject, can obecased with the remark; "As for myself, I am far enough away to be in no danger of being struck by the inclanding atmos

Emilrond Quarterly Report Overdue. Boston, Sept. 3 .- The New York, New Haven & Harcford railroad have ask a the board of railroad commissoners for an indulgence from the rule requiring quarterly reports to be filed at v days from close of quarter. The Inne 30 report is now twelve days overthe and the road asks leave until the and of September for the Sling of this most litts understood that some of records of the company have been estroyed by fire.

A RESPONSIVE POWER.

Compressed Air Is a Dangerous Rival of Electricity.

It Runs Street Cars. Shears Sheep and Carves Stone-Lsed in Place of Belts and Shafting in Many Machine Shops.

Compressed air as a power is coming to the front so rapidly that electricians regard it as a dangerous rival. The men who make the machinery for compressing, storing, transmitting and applying air have made wonderful improvements within the last few years. and to-day they succeed in retaining fully 90 per cent, of the initial energy, len years ago a compressed-air drdl that was able to utilize 50 per cent, of the power which compressed the air was regarded as a first-class tool, but drills are working to-day which develop 90 per cent, of the "prime" power.

During the past two years, says the Chicago Record, the clean, safe, flexthle elastic and responsive power has developed so largely that it has be come popular, and runs street cars and locomotives, raises sunken vessels and does many other useful things. It paints buildings and steers ships. shears sheep and dusts carpets. 1 pines coal, iron and precious metals. and lifts water out of wells. It carves stone and cleans castings. It mixes chemicals and explosives and runs clocks. It has thrown our beits and snafting in many machine-shops, and it of crates sewing machines in private houses. It carries mail and operates block signals. It acts as a refrigerator and propels fish torpedoes, and it does a thousand and one other things as

Just at present compressed-air mofors for street cars are exciting considerable attention, and it is predicted by mechanical engineers that within a few years compressed air will displace trollev cars on many street car roads.

The compressed air men are so confident that their favorite power will take the place of electricity in many things that they are talking of using the current from the Niagara falls electric plant to operate compressors at distant points and using the compressed

air for work at the place of consump-

tion, claiming that by this double ar-

rangement more power can be devel-

It is claimed that the greatest future of compressed air lies in its application to traction purposes. In Rome, N. Y., the hardie system of compressed hir street cars is in use.

The cars are about the size of the summer cars used on the Clark street cable system in Chicago, and the motor or propelling machinery is concealed beneath the car. The motor cars weigh about eight and one-half tons each, and the compressed air is stored in cylinders, made without seams, of mild steel. These cylinders are called "Mannesmann bottles," and can withstand enormous pressures. The air stored in these cases passes through reducing valves into pipes

which pass through a hot-water tank. The heat expands the air so that less of it is used to obtain a given result. The air pipes lead to the platform where the motorman is stationed, and where the controlling values are placed.

The engine is connected with all of the four wheels, and occupies less space than an electrical motor of the same horse-power. The motor is rapid in action, but is under perfect control. and the air is so elastic that there is to jolt or jerk to the car when the car is started. There is no danger from an explosion, for even if the storage cylinders should burst the steel shell would simply peel off, the air would escape and nothing but dust would be ruised. The storage tanks or cylinders contain enough air for a cound trip, and they can be recharged n a minute or two. If the motor car nauls a "tra ler," storage tanks can be placed in it, and a double supply of the "power" is ready for use.

Compressed-air men claim that in every respect compressed air is superior to electricity for traction purposes. They say there is no danger from overhead wires, no armatures to be burned out, no trolley poles to obstruct the street and no stopping of an entire line because a single wire breaks down. In Australia large numbers of sheep are sheared by compressed air. That is, the air operates the devices which clip the wool. This machine in the hands of one man does the work of three men, and does it cleaner, better and with less injury to

Recently a stone carving or dressing device operated by compressed air was ntroduced. The chisel or entting tool works in and out at a high rate of need after the fashion of the comiess d-air calkers used in boiler shops, and, like that tool, can be regulated at

THE ALUMINUM AGE.

Wonders That Are Being Done with the New Metal.

It Is Entering Very Largely Into Many of the Industries and Arts and Has Before It a Wide Range of Usefulness.

Aluminum, the youngest of all metals, is rapidly coming into general use. It was discovered by Frederick Wohler, a German professor, in 1827; but to St. Clair Deville, a Frenchman, belongs the honor of being the founder of the aluminum industry.

The first urticle made of this metal was in compliment to Louis Napoleon --who had helped Deville--a baby rattle for the infant prince imperial. In 1855, when the first aluminum com-

pany was formed, the cost of a pound of the metal was about \$100. In 1889 Charles M. Hall, of Oberlin, O., patented an electrolytic process. He with a few of his friends then started a small plant on the bank of the Allegheny river, 18 miles above Pittsburgh. The first year the company produced 75 pounds of aluminum a day, which they sold at \$4.50 a pound. In 1895 a company built a large plant at Ningara falls, and this year they are building add tional vorks. When these are completed they will have an output of 11,000 pounds daily. This will put the United States in front as the largest aluminum-producing country in the world.

Aluminum's weight is about one-third that of iron, and only steel of the highest quality and the best aluminum bronze will give a greater strength for a given weight than aluminum. It stends high in the list of nealleable metals, and can be drawn into wire 1-250th of an inch in thickness. It is an excellent conductor of electricity, and would at 20 cents a pound take the place of copper for all electrical pur-

In Germany two army corps are equipped with aluminum, which includes chevrons and every article of metal carried on the person, even the buttons on the clothes and the pers in the shoes. The sword bayonets, scabbards and contents are also made of the metal. In Paris there is a cab made of aluminum, and some of our best racing recordshave been made by horses wearing aluminum shoes and pulling aluminum sulkies. Tor decorating purposes it is better than selver, because the air, which blackers silver so quickly, has no effect on it. The president of one of the largest palace car companies in this country is said to have remarked that the price alone kept alumnum from being used entirely in car decoration. A short time ago an enterprising frm in Ohio built several aluminum ducking boats, as well as a number of rowboats. They found they were very successful, especially the ducking boat, as this craft was extremely I ght and non-sinkable.

Price has been the only drawback to the general use of aluminum, but that will soon be such that the rich and poor alike will be able to enjoy the great advantages which the metal offers. It seems likely that the year 1597 will see aluminum selling at less than 55 cents a pound.

Thus the growth of this wonderful metal has been spreading out in all directions. A few weeks ago an aluminum bicycle was shipped to an em nent politician in England, Mr. Balfour Here again its beauty and non-tarmsbable qualities, together with its lightness, make it most desirable.

Cooks of the twentieth century will no doubt demand that their employers supply them with aluminum cooking utensils, as the metal is an excellent conductor of heat, and it is almost inpossible to scorch anything while cooking. Dentists are already using it in

making plates, as aluminum has its advantages over gold, for on contact with metallic substances no disagreeable electric current is set up. For scientific instruments, such as sextants, transits, levels, etc., where the inertia of a heavy moving part is to be avoided, aluminum is the metal per excellence. Photographers find aluminum flashlight powder better than the present marnesium, as it is cheaper and not so liable to explode in preparation and produces none of the white fumes so disagreeable in the use of magnesium. Among other uses for aluminum are keys, watches, musical instruments, car roofs, see and roller states, and many other articles which lack of space prevents mentioning.

The substitution of aluminum for copper and nickel coins has long been a subject of debate, and a bill is now before the house of representatives authorizing the secretary of the treasury to make a trial of aluminum coms. The advantages of aluminum for coinage

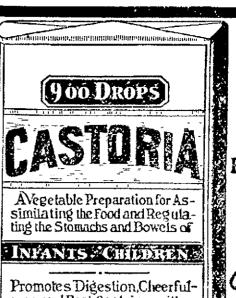

1 It takes a fine impression when stamped.

2. It wears remarkably well. 3. It resists corrosion better than copper, bronze or any of the common metals. Besides this, if it does corrode slightly, the salts formed are harmless, which is more than can be said of any other metal.

4. Weight for weight, it is cheaper than copper, and only slightly dearer than nickel alloy.

5. Lightness. "At present," to quote Prof. Richards, "the people of the United States are carrying around probably 3,000 tons of to 1 or coins." Aluminum's weight is about one-third of that of copper or nickel, so we could reduce that weight 2,600 tons by adopting aluminum.

Horseless carriages, which are at tracting so much attention now, could be most advantageously built of aluminem, thereby making them not only much lighter, but much stronger. Surgical instruments are being made of aluminum. The harmlersness of the metal makes it exceptionally desirable for use in surgery, and when a man has to be braced up he will find alumman body that is not hardened by age. Inum a great comfort.-N. SULLIVAN COUNTY DELEGATES DIS-GRUNTLED.

Even Ben Odell Could Not Reconcile Them to the Nomination of John Grant

From the Delhi Gazette.

The Senatorial convention held at Sidney, Saturday, resulted in the nomination of John Grant, of this county. The result was expected, but there were many things, which if they are true, as reported on good . Portland, Ore., if required. Republican authority, constituted another chapter of genuine surprises.

When the delegates assembled it was at once discovered that Sullivan county had no use for Mr. Grant. Hi is reported that ! the delegates would not even accept a l eigar from him. When the convention was called they would not give him their i votes, and when it was over they even refused to accept from Mr. Grant the customary payment of their bills at the hotel. They curtly said, " we are able to pay our bills."

Their votes were east for Mr. Church, of Chenaugo, and they expre sed their willingness to vote for several other Chenango men, but in no case for Mr. Grant. The difficulty presented was to control the Chenaugo delegates, for it was clear that Mr. Church or some other candidate had a "soft snap." In this case it was found necessary to send for Congressman Ray to keep the Chenango delegates in line with Delaware, and they finally did as the Congressman desired, but the Sullivan delegates, who it is reported received a relegram or its equivalent, from B. B. Odell, Chairman of the State Executive Committee, directing them to vote for Mr. Grant, still refused to be directed, and after easting their votes for the Chenango man, they offered a resolution that the next Senatorial convention convene on Sunday, at 10 a.m.

Eating Slowly.

The opinion that hurry in eating is a prolific cause of dyspepsia is founded on common observation. The ill results of bolting food have been attributed to the lack of thorough mastication and to the incomplete action of the saliva upon the food. Two-thirds of the food which we eat is starch, and starch cannot be utilized in the system as food, until it has been converted into sugar, and this change is principally effected by the saliva. But there is a third reason why rapidity of eating interferes with digestion. The presence of the salivary secretion in the stomach acts as a stimulus to the secretion of the gastric juice. Irrespective of the mechanical function of the teeth, food which goes into the stomach incompletely mingled with saliva passes slowly and imperfectly through the process of stomach digestion. Therefore, as a sanitary maxim of no mean value, teach the children to eat slowly, and in giving this instruction by example the tracher, as well as the pupil, may receive benefit. -Troy Times.

Old people who require medicine to regulate the bowels and kidneys will find the true remody in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding. Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they nord, Price fifty cents and \$1.00 per bottle at McMongle & Rogers' Drug Store.

It doesn't matter much whether sick headathe, biliousness, indigestion and constipation are caused by neglect or by unavoidable circumstances, DeWict's Little Early Risers will cure them all, W D. Olney.

Don't triffe away time when you have cholera morbus or diarrhoea. Fight them in the beginning with DeWitt's Cali & Cholera Cure. You don't have to wait for results, they are instantaneous and it leaves the bowels in healthy condition. W. D. Olney.

Does your head feel as though someone was hammering it; as though a million sparks were flying out of the eyes? Have you horrible sickness of the stomach? Burdock Blood Bitters will a re you.

QUEER NAME FOR A FLY.

It Deceived the Judge About to Start for His Vacation.

Police Judge Campbell announced from the beach the other day that he was desirous of having all the business of his court cleared up prior to the date of beginning his vacation. He had hardly descended from the judicial bench when a solemn visaged friend approached him and grasped his hand.

"Clad to hear that you are going away for relaxation, judge," said the friend, "but I want to warn you against the sarcophaga."

"Sarcophaga? What the deuce is that?" "What! Never heard of the sarcop-

haga? Sarcophagus, which was originally a stone coffin, supplied the name for the sarcophaga-only it has been Latin zed.

"The dickens!" said the jurist.

"Yes, indeed. Rightly named, too. You know that this climate encourages noxious life with the same fecundity with which it gives rise to fleas. On every scented breeze are bacteria, pupae and larvae in sickening profusion. That is, they are sickening to any man not as robust as you are. By the way, how are you feeling?" The jurist said that he felt fairly.

"Perhaps you are all right then." broke in the friend, cheerily. "But to return to the sarcophagus-no, sarcophaga, I should have said. Not a arcophagus, eh, judge? Awkward mistake, that."

'No, not the sarcophagus, of course.' "Of course not. But the body of this foe of man and beast, black and funeral as his coat, is too suggestive for comfort. A tracing would show the main lines of the body to be shaped like a coffin lid. Ah, yes; here you are; not a good drawing, but still it shows a coilin with wings on it. The wings belong to the sarcophaga, and not to the sarcophagus."

There was something eerie in Judge Campbell's eyes as he edged slowly away, refusing to accept an invitation to take a drink or a cigar, or to receive further warmups. When his friend had gone away the jurist sought out an elementary work on entomology.

"Well, I'll be blessed." he said: "that is a good joke, after all. The fellow was talking all the time about a horsefly."-San Francisco Call.

CURE FOR ENNUI.

Book Agents as a Means of Making Time Pass Quickty.

"I used to revile the book agent," remarked the slightly blase young man 'I once read the gibes at him which appear in the publications with great relish. I looked upon him as an enemy of mankind." "Have your feelings undergone :

change?" inquired his friend. "Decidedly. There was a time when

I was getting weary of life. My business wasn't sufficient to occupy my en tire time, and I was cursed with lei-

"Things seemed to be getting quite "?wola

"Exteedingly so. Nobody was writing the kind of novels I like, and the theatrical entertainments seemed standant with a dreary sameness. I tried a trip to Europe, which was very well while it lasted, but it didn't do ary permanent good. -The days Tragged along so that a week seemed like a liberal installment of eternity. Nothing afforded any relief until, by

ccident. I tried book arents.' "You mean you bought some instructive works that absorbed your at-ಚಾರದ ಜ."

"W H. I suppose the works were intructive enough. But I didn't look into them more than once or twice. Two or three happened along the same ay. They had art collections and choice selections from Unglish literature, and I hought a set of books from each. I was to eav for them menthly. and now every minute has wings on it. It seems to me that I scarcely make one payment before the man gets around for the next one. And then I figure it out and see how the time has really flown, and I pay up and look pleasant and feel that I've had more than my money's whith even if I never read a line in my new library."-Detroit Free Press.

Second Ward—Phoenix Engine House,
Third Ward—Commercial Hotel,
Fourth Ward—Holding House,
By order City Committee.

"Our Erring Brethren" is the very felicitous headidg which the staunchly Democratic Binghamton Leader appendes to its dispatches concerning the bolters' convention at Indianapolis.

After sixty-two ballots, the Republican convention in the Sixth Judicial District. yesterday, nominated for Justice of the Supreme Court Burr Mattice, of Oneonta, now on the bench by appointment of Gov. Morton.

An Indianapolis dispatch is to the effect that Bragg and Buckner, who hope to be nominated for President and Vice President by the bolters, were in high good humor, yesterday, at the Republican gains reported from Vermont. Nothing else was to be expected from men who are willing to act as decoys for McKinley in the hope of drawing Demoeratic votes from Bryan.

The campaign for the Republican nomination for State Senator in the Sullivan. Delaware and Chenango district, which ended in the nomination of John Grant, of Margaretyille Delaware county, is said to have been the most expensive in the history of policies in that district, where campaigns have never been condue ted on Synday schoollines - A Repubhear nonmation is equivalent to an election, and therefore, the campaigning is all done in securing delegates.

The Hannite and Hammerat newspaperspected to be greatly surprised at the number of States represented in the bolters' convention at Indianapolis. With the system or making "delegates" made use or by these counterest Demoerats there is no good reason why every State should not have been represented. It would have been an easy matter for the managers of the bolters to have designated delegates from every State, for that was the way in which most or those m attendance got their credentials.

McKinley's repudiation of all the silver sentiments be once held and his open avoval of most extreme gold standard views are likely to cost him the votes of many Western Republicans. They did not like their party's platform, but they thought that "platforms were only to get in on," and that McKinley was a good enough silver man at heart to take given the chance, but they now see that in the hope of winning the votes of gold Democrats he has burned all his silver bridges. The dissatisfaction of the free silver Republicans in the West, who wanted to remain loyal to their party is voiced by the Peoria, Ill., Journal, which

The Journal is a Republican paper. It believes that two things are necessary to the independence of the people of this republic. One of them is bimetallism; the other is protection. It does not propose to support any party, or any man who defies these principles, be his nome what it may, nor does it purpose to be made a cat's-paw to serve the ends of the bullion broking parasites who fastened themselves upon the Republican party at St. Louis, It has stated, and it believes that bimetallism is necessary, and the gold standard an unmitigated curse to

Ed. Shepard, of Brooklyn, who went to the Indianapolis convention as one of New York's delegates-at-large, was so angry because he was not treated with the consideration that he thought he merited that he refused to go to the convention hall and started for home before the delegates met. This may seem petty and childish, but Shepard must not be judged too harshly. He has got so in the habit of bolting that he could not help bolting from the bolters.

The Internal Revenue collections show that the habit of smoking is on the increase in this country. During the fiscal year, ended June 30th, 4,050,834,220 cigarettes were manufactured, an increase of 722,356,543 over the preceding year. The output of eigars increased 73,783.504. There was a slight decrease in the quantity of chewing tobacco manufactured but, strange to say, there was an increase in the product of snuff

from 10,381,475 to 12,548,600 pounds.

In 1866, when the public debt was at the highest figure, \$2,773,236,173, less than 2.000,000,000 bushels of wheat could have been sold for money enough to pay every dollar that we owed. In thirty years the debt has been reduced by taxes wrung from the people, until now. including the recent bond issues. it amounts to about \$1.800,000,000. We have apparently paid off one-third of the debt but, ro-day, it will take 4,000,000,-000 bushels of wheat to pay the balance. In other words, measured by any other standard than the appreciating gold dollar, we are, to-day, after paying \$900,-000,000, twice as much in debt as we were thirty years ago. Does not this indicate very plainly who is benefitted by the maint-nance of the single gold standard and in whose interest the Republican party is fighting the buttle for its perpetuation?

A FEW REFLECTIONS. From the Elmua Gazette.

That the dollar has steadily appreciated during the period following the civil war cannot be disputed. This appreciation is not fully explained by the increase of commodity producing power. It must be in part, at least, attributed to our financial legislation. That the dollar will continue to appreciate steadily under the Republican programme is hardly less clear than that it has appreciated.

Our appreciating dollar makes conditions harder for the debtor and gives the creditor an unjust gain. Any dollar which does not remain as nearly as possible the same from year to year wrongs the creditor. If it enhances, the debtor pays more than he borrowed. If it declines the creditor receives less than he loaned. In its moral phase it is as wrong to cheat the one as the other.

If the dollar is steadily appreciating, it is high morality to attempt to check that appreciation. That effort becomes immoral only when it seeks to depreciate the dollar. If the dollar must fluctunte, then the question is simply a choice of evils,

Mr. Bryan promises to check the appreciation and establish a stable dollar. Mr. McKinley promises to continue present conditions under which the dollar appreciates. Bryan will attempt to correct. McKinley will simply continue. The question for the voter to decide is whether Bryan's "do something" will equal expectations. Of McKinley's "do nothing" nothing better is expected. So far as calling hard names is concerned it. is as tair to call McKinley, the candidate of oppression as to call Bryan, the candidate of repudiation. It it comes to a question or cheating the debtor or cheating the creditor the altruist can only take to the woods. The chief purpose of these observations is to show that the question is intricate, that honest men may disagree, that well-propped arguments on one side are met by well-stayed contentions on the other, and that the party of the greater viciousness in this campaign is that which is most active in imputing wholesale dishonesty to the other. Americans are an honest people. Great divisions may err, but such have ever the externation of right intent.

LATEDT

THE BOLTERS' CONVENTION.

The Platform Not Ready and So the Convention Kit's Time-Col. Breckens ridge and Others Speak-New York Delegates Want All Silver Coinage Stopped.

BY UNITED PRESS.

Indianapolis, Sept. 3. — There was rain to-day, at the opening of the convention. The delegates had all assembled by 11:30 o'clock. Chairman Caffery announced that the convention was awaiting the report of the Committee on resolutions and Col. Breckinridge was called to the platform. He denounced the Chicago platform and asked if the financial questions of centuries were to be re-opened by a half educated boy orator. He paid a glowing tribute to the judiciary.

The New York delegation at a meeting, this morning, adopted a resolution opposing the further coinage of silver and instructed the chairman to present it to the convention.

While waiting for the report of the Platform Committee, J. DeWitt Warner, Controller of the Currency Eckles and others spoke. A motion to take a recess was lost and at 2:30 o'clock the convention was killing time and waiting for the Platform Committee's report.

Gen. Bragg is the leading candidate. The platform finally adopted denounces the ('hicago platform and unequivocally declares for gold standard.

LI LEAVES NEW YORK.

Gave Flowers to Women Guests of the Waldorf and Silver Medals to Chinese

BY UNITED PRESS.

New York, Sept. 3.-Li Hung Chang left for Philadelphia, early this morning. Before leaving Li presented the proprietor of the Waldorf with his photograph as a souvenir. To each of the women in the hotel he presented flowers. His baggage numbered nearly 300 pieces. Before his departure Li received a delegation of fifty Chinese merchants. He presented each of them with silver medals. The train bearing Li left Jersey City at 8:30.

IN BRYAN'S INTEREST.

Conference of Democrats and Silverites Called by Senator Jones.

BY UNITED PRESS.

CHICAGO.Sept. 3-A conference of Demorats and silver leaders will be held in this city. Saturday. It is understood Chairman Jones has requested all members of the Democratic National Committee to be present. It is rumored that it is the intention of Jones to fill the places of those members of the National Committee who have not declared themselves for Bryan, Among these is ex-Lieut. Gov. Sheeima, or New York.

CLEVELAND WON'T HAVE IT. Peremptorily Declines the Doubtful

Honor of the Bolters' Nomination. BY UNITED PRESS,

Indianapolis, Sept. 3-Chairman Griffin, of the New York delegation, to-day. received the following dispatch in answer to a telegram sent President Clevel and at Buzzard's Bay, suggesting that he consent to accept the nomination:

"My judgment and personal inclination are so unalterably opposed to your suggestion that I cannot for a moment enter-tain it."

-Mrs. Augustus Pohlman, of No. 97 Prospect avenue, left this city, this afternoon, for Montgomery, where she will visit her cousin. Mrs. Edgar H. Smith. Shewill start Sunday for Cornwall-on-the Hudson, where she will meet her husband and little son, and from there they will go to New Haven, Conn., where Mr. Pohlman is engaged in business, and where their inture home will be.

SHOT AT ON THE HIGHWAY.

The Dick Turpin of Hamptonburgh Stops a Farm Hand, and Fires Three Shots at Him When He Turns to Flee.

From Our Goshen Correspondent.

John Good, a young Polish farm hand, imployed by James Price, of Hamptonburgh, spent last evening in town and rarted to walk home at about 12 o'clock. Somewhere in the vicinity of Michael Burke's jarm a man stepped out of the shadows along the highway and asked Good where he wasgoing. Good backed away from the man and replied that be was going home. He then turned about and ran back toward Goshen. The man fired several shots from a revolver at him, none of which took effect.

Good continued running until hearrived at the St. Elmo. He was badly frightened. The highwayman chased him as far as Johnson's Corner.

The police will make an investigation.

Dissatisfied With Its Telephone Service

Port Jervis is making loud complaints on account of its telephone service, many subscribers being unable to use their phones a great part of the time on account of crossed and grounded wires. The fault, the Gazette says, lies in the company giving too large a territory for one man to look after, that village being under the control of the superintendent in this city.

Recorder's Court.

Geo. F. Crawford, a real estate and in surance man of Montgomery, who has been doing a turn at Goshen jail, started for home, yesterday, by way of this city. He got drunk here and was arrested and locked up until this morning. He claimed to have taken but a single drink, but if so it must have been a big one. He was told to leave town.

A Paterson Girl With Symptoms of Glan-

It is feared that the fifteen-year-old daughter of John Foley, of Paterson. Is suffering from glanders. Her father recently bought a horse, which was afterwards found to be glandered, and which possession his daughter assisted in caring for it and is supposed to have contracted the disease.

A Good Catch of Black Bass.

W. Nelson Knapp is having fine sport fishing for black bass in the Delaware at Cochecton. He sent home by express, yesterday, a dozen fine fish among which were two that weighed three and one-haif pounds each, two weighing two and a half pounds, and one one and three-quarter pounds the others being also of good size.

W. C. T. U. Notes.

The Eric e rrned gross for July \$2,635,-533, an increase of \$12,830, and net \$782,455, an increase of \$150,227.

HOOD'S PILLS cure Liver Ills, Billousness, Indigestion, Headache. Easy to take, easy to operate. 25c. PICNICKING AT MIDWAY.

Colden Rod Auxiliary, B. of L. E., of Port Jervis, Enjoying an Outing.

Golden Rod Auxliary to the Brotherhood of Locomotive Engineers, of Port Jervis, is picnicking at Midway Park, to-day. The attendance is large. Members of the order and their friends began to arrive on the Mountain Express, this morning, and every train has brought a number to town,

The first arrivals were the members of the committee, who came early to make preparations for the entertainment of those to follow. The engineers, as last as they had completed their runs, made their way to the park to join their wives and sweethearts. The ladies had brought ample provisions and a good dinner was served, and the balance of the day was spent in seeing the sights of Midway and having a good social time in the cool shade of the beautiful retreat.

SETTLED OUT OF COURT.

Engineer Smith's Claim Against W. O. Stratton Paid by the City Hall Commissioners.

The suit of City Engineer Charles H Smith against William D. Stratton to recover \$50 for surveying a lot on Foundry street which it was proposed to buy as a site for a city hall, was settled this morning. The City Hall Commissioners met, and having no public funds at their disposal paid Mr. Smith the amount of his bill from their own pockets and took an assignment of his claim, which they will present to the Common Conneil and ask for repayment.

An Angry Wife's Pursuit of Her Erring Husband.

A story is told of a youngmarried man of this city who took a young woman out riding, one afternoon this week, and whose wife heard of it and started with another rig in hot pursuit. She overhauled the couple near Mapes' Corners where she spoke her mind in no uncertain tones, and then returned home, leaving her husband and the woman to continue their pleasure trip. At last accounts, the husband had not returned.

Fast Running on the Erie.

The Erie boys are accomplishing some great leats in speed of late. Tuesday evening, engine 893, attached to the second section of No. 8, consisting of sixteen cars, with Ed Taylor at the throttle and Conductor J. J. Delaney in charge, ran irom Susqu hanna to Port Jervis in just three hours and twenty minutes. This is moving along quite rapidly. The distance is 103 miles.

The C. and W.'s Good Showing for the

The New York, Ontario and Western earned gross for the year ended June 30, \$3,779,335, an increase of \$110,222; net \$1.193.427 an increase of \$65,666; total income, \$1,294,892, an increase of \$72.041: surplus after charges, \$375,-569, an increase of \$49,178; total surplus, \$2,296,427, an increase of \$371,-

Newburgh's and Middletown's Tax Rates

Newburgh's tax rate is \$17.50 per \$1,000 of valuation. Middletown's is \$28.25. For a few years past our Republican bosses have been copying after Newburgh in the government of the city, but we seem to have overstepped our elder sister in the matter of a high tax rate. Newburgh's assessed valuation is \$10,910,590, and the tax levy \$190,-935.32.

Erie Agents Dismissed for Giving Credit Three station agents on the New Jer-

sey and New York branch of the Erie wese dismissed. Tuesday, for having given credit for tickets and freight to an amount that they could not make good when the traveling auditor came on them unexpectedly. It is against the rules of the road to give credit, but these agents had yielded to the importunities of friends.

The Fastest Heats in History.

John R. Gentry at Fleetwood, yesterday, paced the three fastest heats ever made, the time being 2.03_4^a , 2.03_4^b and 2.034. Frank Agan was second and Robert J., third.

In cases of burns, sprains, scalds, or any of the other accidental pains likely to come to the human body, Dr. Thomas' Electric Oil gives almost instant re-

INCIDENTS AND HAPPENINGS IN GOSHEN.

Change of Date-Sermons to the Young - Historical Sketch of St. James Parish-Business Change-Other Notes From Our Regular Correspondent.

-The dates of Tuxedo Day have been changed from Oct. 2 and 3 to Oct. 9 and 10. The programme has not yet been arranged.

-Rev. R. B. Clark will begin a series of sermons to young people, next Sunday

-The vestry of St. James' Church are publishing, in neat pamphlet form, a historical sketch of St. James' parish, Goshen, N. Y., contained in two addresses delivered by Rev. George Betts, rector. during the octave of St. James' Day, A. D., 1896. The book will contain over 50 pages and will be sold at 50 cents per copy. Orders for same may be addressed to Oliver Tuthill, clerk of vestry, Goshen. N. Y. They will be ready for delivery the latter part of the mouth.

-Dr. J. H. Thompson is spending a week in New York city with friends.

-George M. Ivory has disposed of his bakery in the Seely block to Mr. Sperling. -The Misses Warren have issued invitations for an informal party to be held at their residence on South street. Monday next.

OFF FOR WALTON.

The Twenty-fourth Separate Company's Visit to the Thirty-third Com-

The Twenty-fourth Separate Company went to Walton, this morning, to assist the Thirty-third Company in opening its new armory. Only about fifty members were able to

leave their business, but these, with twenty members of the band and several citizens made a very respectable representation of our city. The company went by a special train,

which left Wickham avenue at 7.20 o'clock. The citizens accompanying them were: Mayor Stansbury, ex-Mayor Iseman, Supervisor Wood, Carl Iseman and Chas. A. Adams.

The Pine Bush Races.

The Pine Bush races attracted a large crowd, yesterday, horsemen being present from all over the county, and the people of the village and surrounding country turning out in great numbers.

The track was in excellent condition, the weather delightful and the racing very good.

Middletown was well represented, yesterday, and quite a number of our sporting men are in attendance, to-day.

The Station at Cochecton Robbed.

On the night of August 31, the station and baggage room at Cochecton were entered and robbed by burghrs. They succeeded in purloining two satchels and other valuables. The Delaware division is being over run with tramps and the Erie detectives are going to proseente with vigorous measures to discourage their presence.

A Sunday School Picnic.

The Sunday School of the Presbyterian Church at Circleville is picnicking at Midway Park, to-day. Most of those in attendance drove to the city and took electric cars for the park, but some came in on the Crawford train.

Base Ball Notes.

-The Y. M. C. A. Club, of Port Jervis, has suffered another defeat, the Deposit team on Tuesday beating them by a score of 11 to 2. The chastisement given the Y. M. C. A. boys, at Florida, seems to have dishearted them.

Be Sure Your are Right

And then go ahead. If your blood is impure, your appetite failing, your nerves weak, you may be sure that Good's Sarsaj arilla is what you need. Then take no substitute. Insist upon Hood's and only Hood's. This is the medicine which has the largest sales in the world. Hood's Sarsaparilla is the One True Blood Purifier.

HOOD'S PILLS are prompt, efficient. always rehable, easy to 1, by, easy to operate.

FALL OF LAWN TENNIS. Bicycling and Golf Have Almost Killed

How comes it that, the champion week at Wimbledon notwithstanding, lawn tennis has unquestionably suffered some eclipse, is played with less eagerness than heretofore, and nas fewer votaries? It has, we are afraid, been eclipsed by more fascinating rivars, and breyeling has completed what golf had air-ady lagon.

It had reached all the perfection of which it was capable; and when that stage is attained, sports, like punting, the sculpture. like architecture, indeed, like all the arts, begin to perish. In all persection are the latent seeds of decay. As long as a great many people played lawn tennis tolerably well, but no one supremely, and all were moving on to amelioration, lawn tennis was safe. But when a certain number of players got to play too well the fate of the game was sealed, as far as universal popularity is concerned.

The inferior players did not care to play with the superior players, and, truth to tell, the superior ones did not care to play with the inferior ones. Shall we be downed very ungallant if we add that. Speaking generally, the inferior players were—well, not of the male sex? They withdrew their countenance from the game in consequence, and the result was that it sank from the position of a national pastime to that of a provincial or a local one.

Moreover, L'eveling is the chartered libertine of the Cay. Mount a bicycle, and the most dragooned young woman may go where she likes, when she likes, and as fast as she likes. If she attempted to go in a boat, in a hansom, or even on horseback, as freely as she moves about on her cycle, the mountains would be called on to cover her, and sne would swiftly be reminded of the obligations and restrictions of her sex. But a female cyclist can do no wrong. Is it to be wondered at that, such being the case, bleyeling promises to kill not only lawn tennis, but to run over everything that stands in its way?-London Standard.

LARGE HATS.

Objections to One of the Prevailing Styles.

Large hats are so pretty and very becoming to most women that it is not strange they are always popular. The beim softens the features, imparts an air of youth to a face which has lost its first bloom, and of distinction to one which is commonplace. That large hats are often overloaded with trimming detracts something from their picturesque quality, and still they can carry off flowers, feathers and bows as the small toque and the uncompromising sailor can never do.

It is to be hoped that fashion will soon decree the retirement of the large hat from assemblages of people. A rule requiring all women to remove obtrusive head-gear in theaters, concerthalls, or even churches can hardly be forced upon the public by special enactment, but it can be enforced by the common-sense and unselfish kindness of women who desire to make their neighpors comfortable and happy. Nobody is happy or comfortable who has paid money for a ticket to a play and then cannot see the play because a hat in front of her obscures the stage; and in a very different place from the theater, the church, nobody indulges pious reflections or thrives in the religious sphere when every devotional thought is dissipated by the intrusion of an alien atmosphere. In the presence of aggressive pomps and vanities consecutive thought and interested attention are impossible, so that the large but ut once proclams itself an impertinence in every indoor function.

At the garden party, on the promenade, everywhere in which its beauty has a certain appropriateness, the large hat is to be commended, but there is a needs be that it stay rigidly where it large, and shall not usurp room where its appearance is undes table.-Harper's Bazar.

In the Bousehold.

To prevent built and gray linens from failing and growing streaky in the process of laundering add a tablespoon of black pepper to the first water in which they are washed. To keep pinks and blues from growing dargy add a tablespoon of salt to the first washing water.

A small flat paint brush, about one inch in width, is a kitchen convenience that no housewife should be without, For the greasing of all pans it is both neater and more effectual than the usual bit of paper. Also if all meats were brushed over with sweet oil and virggar before sending to the refrigerator they would retain their juices and flavor far more perfectly than is commonly the case.

Teather hads and mattresses should he banished from the home of the hycienic woman. Hair mattresses, 🛣 they are hard and duty, can be made fresh by ripping the ticking, removing the hair, washing the ticking, picking the hair and jutting it in a dry, any place for several days. When the nking is div it should be filled lightly with the hair and tacked together again. The woodwork of each bed fould be scrubbed, washed and dried in the sunlight,—Cliniago Record.

Jackets Are Raging.

Taney jucket effects are the latest gowns, and the figure is particularly fashionable. A gown of dark blue butchers' linen is made with one of the jackets claborately embroidered with white cotton braid. The skirt has an odd pattern of the embroidery put all around it, and over a plain white slik shirt is worn the jacket, which is also embandered. The Seeves are odd, with the white silk, showing like a puff under a half sleeve of the linen. This white braiding will be seen on the face of everything next season. At present it is a novelty. The hat for this gown is of dark blue straw, A GENTS make \$5.00 a day. Groatest kitcher trimmed with blue ribbon boas and utensil ever invented. Retails 35cts. 2 to 6 pink roses massed both on and under the Eversure & McMarin. Singulat. 6 the brim.—St. Louis Republic.

SMALLER THAN USUAL

-h'liputian, in fact, ale Dictor Price's Pleasant Pellets. Dr. R. V. Pierce, Chief Consulting Physician to the In-valids' Hotel and Surgical Institute, of Entialo N. Y., was the first to in Produce a Little Pil the American neonic. lavative and ca-thartic purposes

these sugar coated "Pellets" are superior in a great many ways to all miner d waters, seditiz powders, salts, castor oil, fruit syrups, laxative teas and other purgative compounds. Made of concentrated vegetable ingredients, they act in a mild, natural way. Their secondary effect is to keep the liver active and the bowns regular, not to further constitute, as a tile case with other pills. They don't interfere in the least with the diet, inbuts or occupation and province no pain, gitteor occupation and profuce no pain, grip-ing or shock to the system.

ing or shock to the system.

Dr. Pierce's Pieasant Pailets cure bilionsness, sica and bilions neudacne, dizin ss, costiteness, or constitution, sour stomach, loss of appetite coated tongue, indigestion, or dyspensia, windy beightings, "heart-burn" pain and distress after eating, and kindred derangements of the liver, stomach and bowers. These "Pellets" are easily dissolved in the stomach and absorbed into the blood, stimulating a flow of bile from the liver, and arousing to activity all the glandmar secretions. Thus activity all the glandmar secretions. Thus they act in nature's oven way. In proof of their superior excellence, it can be fruthfully said that they are always adopted as a household remedy after the first trial. Put up in riass vials, therefore always fresh

and reliable
One little "Pellet" is a layative, two are mildly cathartic. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve distress from over-

dinner. To relieve distress from over-eating, they are unequaled.

They are tiny, sugar-coated granules;
any child will readily take them. Once used, alreavs in favor

Accept no substitute that may be recommended to be "just as good" It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help.

FIRE ISLAND LIGHT. The Best-Known Beacon on the Atlantic

Coast of America-Tire island fight is perhaps the bestknown beacon to the marmer and traveler on the Atlantic coast of America. It is situated on Fire island- a long low bar of beach sand on the south coast of Long island, about 45 miles eastward from New York-and is usually the hist thing in America sighted by vessels coming hitherward from European posts. Its welcome gleam can be seen from the musthead of an incoming vessel nearly is miles out at sea, and fir in the hur forme deck of a steamer fully 20 nales off the coast.

What a signal of joy, says the I! ustrated American, its bright star of

FIRE ISLAND LIGHT.

light piercing the darkness has been to milnors of wearled immigrants anxious ly watching for the first sight of their expected Canaan, their promised land, where the old world oppressions, the heartburnings and hunger and toil of the monarchical regime would give place to a new life in the land of freedom! How they have halled its rachance as the emblem of their new start! Its rays, flashing in one glad streak upon the waters far out to sea, have been watched with delight by Americans returning from abroad, who have greeted it with the exultant song of: "This Is My Own, My Native Land!" What a boon it has been also to the storm-tossed mariner seeking a safe baven from the storm.

Again, what comfort has filled the hearts of those waiting and hoping against hore, perchance, for friends on long-overdue sessels when the telegraph sped the tid rest "Tiest omer City of --- passed Fire islan I light, inward bound, at - p. m. All safe on board.

The sung-writer who sang "The Lighthouse by the Sea," and "Bright Star of Hope," may well have had Fire island light in mind when he penned

CHILD'S STRANGE FREAK. She Fats Iron Ore and Prefers It to Cake

The strange case of the Utile daughter of James Cardner, of Bessemer. Mich., continues to affract the attention of the medical fraterulty. Mr. Gardner, who is a mirer, lives near the mine where he is employed. The child has developed an uncontrollable appetite for iron ore, which the eats with relish, and in spite of her peculiar diet is apporently healthy, strong and bright. The ched is now about two years of are and has been addicted to the habit eller and she ecula creep. She eats particles of one which she guttle re with her land to gers from the erround When the child has been kept away from the mine she has even known to serape the one from her father's books. devouring the ferrigenous feed with

SHE LIVES ON AN IRON ORE DIET. singular relish. The family have tried many plans to break the liabit, but as yet without avail. They have trad the experiment of mixing all kinds of obnoxious drags with the ore, but beyond making a wry face the decortion is devoured with gusto. The family have now adopted stringent methods to break the child of the habit and she is never allowed to get out of sight for a moment. Mr. Gardner is very much annoyed at his child's novel habit, while poted physicians have been unable to break the little one's mania.

London Has a White Frog. Albinos are a curious freak of nature that occur not only among the human tace, but also among several species or animals. Museums have shown pure white horses, dogs, stags, deers, haves, ravens, crows and sparrows, but an amphibian albino is a great rarity, and all London is now flocking to the Museum of Natural History to view a white frog, the only specimen of its kind ever known to exist. The frog is absolutely white and has red eyes. which stamps it without a doubt as belonging to the albino class.

Institutions to Chinese Feasts. The Chinese send three invitations to the guests that they desire to see at their great feast. The first is dispatched two days before the feast, the second on the day itself, in order to remind those they have invited of their engagement, and the third just before the hour has arrived, so as to show how impatient they are to see their friends

It is a perfect regulator. It quickly cures biliousness, indigestion, eruptions of the skin and all blood diseases. Large sizes 50c. and 25c.

CASTORIA

For Infants and Children.

For Over Fifty Years

Editor-It seems to me, Smallwitz, MRS, Winslow's Soothing Syrup has been used that you are writing a good many jokes. by millions of mothers for their children while sething. If disturbed at night and broken of your rest by a sick child sudering and crying with pain of Cutting Teeth send at once and get Smallwitz-Yes, sir; I'm trying to a bottle of "Mrs. Winslow's Scothing Syrup" for Children Tecthing - It will relieve the poor little sufferer in ... ediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhea McSwatters (handing McSwitters a regulates the Stomach and Bowels, cures Wind weed)-There, old man, you'll find that Colle, softens the gains and reduces latinutuation, and gives tone and energy to the whole Eys "Mrs. Winslow's Soothing Syrup" for chil-McSwatters (puffing)-Hum! Most dren tecthing is pleasant to the taste, and is the prescription of one of the oldest and best female remarkable resemblance. What is it? physicians and nurses in the United States. Price twenty-nye cents a bottle. Sold by all druggists. throughout the world. Be sure and ask for Mas-He-I never look at you without Wisslow's Southing Street."

Why Is It,

If catarrh is a blood disease, as some claim, that physicians frequently advise change of air and climate to those suffering? Catarrh is a climatic affection, and nothing but a local remedy or a change of climate will cure it. Ely's Cream Balm is so efficient as to do away with the necessity of leaving home and riends. causing instant relief and is a real cure of entarrh.

Many a day's work is lost by sick headache, caused by indigestion and stomach troubles, DeWitt's Little Early Risers are the most effectual pill for overcoming such difficulties. W.D. Olney,

If you have ever seen a little child in the agony of summer complaint, you can realize the danger of the trouble, and appreciate the value of instantaneous relief always afforded by DeWitt's Colic & Cholera Cure. For dysentery and diarrhoea it is a reliable remedy. We could not afford to recommend this as a cure unless it were a cure. W. D. Olney.

The whole system is drained and undermined by indolent ulcers and open sores. DeWitt's Witch Hazel Salve speedily heals them. It is the best pile cure known. W. D. Olney.

OLD LADIES' HOME FAIR. Fine Display of Fancy Goods and Other

Articles-Attendance Large. The annual fair at the Home for Aged Women is in progress at the Home on South street, this afternoon, and will be continued this evening. The attendance is large and there was never a finer display of fancy and domestic goods and the various other articles usually offered for sale on these occasions.

In the north parlor are three tables on which fancy goods are offered. One of these represents the town of Goshen, and is presided over by Miss Harriet Phil ips and Miss Mary E. Grier. They have also a small table filled with handpainted china. These ladies held a sale in Goshen, yesterday, and realized nearly \$200, and are, therefore, likely to make a larger contribution to the funds of the society than any of the other towns.

The Hamptonburgh table in this room is p esided over by Mrs. J. P. Uptegrove and Mrs. S. I. Webb. They have a large assortment of lancy goods.

The other table in this parlor belongto Washingtonville and is filled with goods of various kinds, and is presided over by Mrs. M. S. Marsh and Miss

In the south parlor, the Minisink table is the first on the left of the entrance. It is filled with domestic goods of various kinds, the handiwork of the good ladles of that town, Mrs. J. R. Halstead, of

the ladies who have them in charge are: Rowland, chairman. Misses Margaret Beatrie, Jeanette Beakes, Anna Misses Mar-Woodward, Jane Purdy, Marion Rorty, Grace Roosa, Carrie M. Little, Christine Myers, Janie Conkling, Kate Harding

The Lunch Committee, Mrs.R.H.Dolson, chairman: Mrs. Mary Conkling, Misses Harriet Hendricks, Nellie C. Purdy, Laura Wickham, Irene Hathaway, Kate Harris, and Elizabeth Startup, provided an excellent lunch at noon, and we are in formed this department was never patronized more liberally than to-day.

day should be present this evening. The ladies will be especially pleased if business men, justead of going home to dine.

The officers present to-day were: Prss ident Dr. Julia E. Bradner, of this city; First Vice-President, Mrs. Charles Jenkins, of Newburgh; Third Vice-President Mrs. J. P. Uptegrove, of Hamptonburgh; Secretary Mrs. Mary H. Conklin, of this city: Treasurer Miss Mary E. Grier, of "Goshen.

The following members of the Board of Managers were present: Mrs. R. H. Dolson, Middletown: Mrs. J. R. Halstead, Westfown; Mrs. S. I. Webb, Hampton-S. Marsh, Washingtonville; Mrs. William Senior, Montgomery.

A CHARLIE ROSS SCARE.

A Norwich Boy Who Went Riding With a Bill Poster Causes Much Alarm.

Norwich had a Charlie Ross scare, Tuesday. Mrs. Olive Seybolt sent her seven-year-old boy, Clarence, on an errand in the morning. He had not returned at noon and search was made for him among the neighbors, and in the afternoon it was extended all over the village. It was learned that he had been seen in a wagon with a strange man, and Sheriff Payne and his assisrants were notified and they kept up the search in all directions until late at night.

About 11 o'clock the missing boy returned. A bill poster, who was going into the country had picked the lad up and taken him with him. The entire day had been spent in posting bills and the ride home had occupied the evening. The mother was so glad to see her boy that she forgot to punish him according to his deserts.

A WILL CONTEST

In Progress Before Surrogate Howell, Yesterday.

From the Port Jervis Union.

A hearing in the contest over the will of the late Wm. N. Case, of Oakland, was in progress before Surrogate Howell, yesterday afternoon, and a large number of witnesses were present. The testimony was very conflicting, some swering that the old gentleman's mind had failed so completely in his later years that he did not recognize his most intimate friends: others testifying that his mind was sound and clear, and that he was capable of transacting business.

The principal contestants are Fred Case, of Middletown, and sister, childrenand C. E. Cuddeback for proponents. The hearing was adjourned two weeks.

Col. Beyea's Labor Day Clam Bake.

Capt. Totten will have charge of the clain bake at Col. Beyea's, at New Vernon, on Monday next, Labor Day, Many from this city will take in the bake for the Captain's reputation as a past master of the art of clam baking is firmly established and every one knows be for-hand that the bake will be the very best that can be served.

A Lawn Party.

Miss Nellie Horton entertained a number of her friends, yesterday, by giving a lawn party at her home, 18 Wilcox avenue. The afternoon and evening were pleasantly spent in listening to music and in playing games. Refreshments were served and a good time was had by all who were so fortunate as to

To Sail for Scotland.

B. F. Gordon, the well known jeweler, will sail for Glasgow, Scotland, to-morrow, on the Allen line steamship State of California. He goes principally for the benefit to his health he hopes to derive from the voyage and will remain in Scotland but a short time. He will probably be absent about a month.

Solieting for the Fire Parade.

The committee appointed to solicit success, and hope when they have called upon all of our citizens to have sufficient money to make the parade one of the most successful ever held in this city.

Gone to Glen Island.

Col. D. C. Dusenberry and daughters, Miss Chira, and Mrs. F. W. Towner and the latter's children and Dr. and Mrs. Conner and Miss Conner went to Glen Island, this morning, for a day's onting.

Would Not Do Without Dr. Hand's Colle

Cure. Mempus, N. Y., Nov. 11, '95,-The Hand Medicine Co.- Our baby, now nearly four months old, has been troubled ever since birth by Wind Colic. At first we tried the usual remedies, but until we tried Dr. Hand's Colic Cure found nothing that would give relief. Now we would not think of being without your Colic Cure and Dr. Hand's Remedies for Children, 25 cents. At all druggists.

Travelers are frequently troubled with dysentery, diarrhon or other bowel complaints brought on by change of water and diet. One dose of Dr. Fowler's Ext. of Wild Strawberry will bring relief.

HYMENEAL. Marks—Stern.

Morris F. Marks, of Hartford, Conn. and Miss Sancha Stern, sister of Mrs. L. Stern, of this city, were married at 5 o'clock, yesterday afternoon, at the home of the bride's mother, Mrs. Ferdinand Stern, 193 Grandstreet, Newburgh. About fifty guests were present. The eremony was performed by Rev. Dr. Rosenau, of Temple Beth Jacob, New-

The bride wore a superb gown of white ilk. Her sister, Miss Mamie Stern, was oridesimaid, and wore a beautiful costume of pink silk. The house was beautifully decorated

with flowers and potted plants. After a wedding trip of four weeks. Mr. and Mrs. Marks will take up their residence in Hartford, Conn.

Kane-Burke.

Miss Katie G. Burke, of Port Jervis and Michael Kane, of Newburgh, were united in marriage, yesterday, at St. Mary's Church, Port Jervis, by Rev. M. Sally. Miss Katie Milan, of Port Jervis, was bridesmaid and Benjamin Farley, O Newburgh, best man.

They will reside in Newburgh, where the groom is engaged as baggage muster for the Eric Railroad Company.
